

## **Plundering Pixies**

The aim is to help the Pixies steal Cheese from the Faeries. Each player, in turn, rolls the dice and may re-roll any they wish until they decide to stick or they roll a Faerie. Then the player must stop and count up the score. A Faerie in the first roll only can be re-rolled. The last single die can be rolled up to three times before the result has to be accepted.

### **Scores**

Pixies, if all of one clan: 20 each

Pixies, if a mixture of clans: 10 each

Cheese: 30 each

All Pixies and no Cheese: deduct 20\*

All Cheese and no Pixies: deduct 40 each\*

Faeries: deduct 30 for each

\* applies only if no Faeries have been rolled; if they have, revert to deducting 30 for each Faerie.

**Play to 500 (5-7 rounds) or 1000 (10-13 rounds)**
